Underground Storage Tank Certification Seminar

Certified individuals performing services on regulated underground storage tanks must renew their certification every three years. You must take a NJDEP certified course within one year prior to renewal. Completion of the Regulatory Training Course provided by the Petroleum Equipment Contactors Association of NJ fulfills this requirement.

NJDEP regulated facility inspection program, the impact of the Site Remediation Reform Act and LSRP program along with current information on the role of the SSE, new mandatory timeframes and fees impacting your operations and your customers' compliance requirements.

In addition to the course materials, attendees receive a valuable CD-ROM containing the latest NJDEP UST rules, regulations and guid-
